ANJ restricts legal online play to approved categories. For real-money Tower Rush on the French market, none of the ten profiles has authorization. Betclic Enterprises Limited and betclic.fr are listed under ANJ for sports, horse racing and circle games (poker). The other nine are treated as international brands with separate operator profiles, without an access route to real-money Tower Rush for a user from France. Having a French-language site, settlements in EUR, a foreign license or a public demo card does not by itself grant authorization. Approved
