4. Operator matrix, mobile clients and cashier

All ten brands have standalone dossiers. In the APP-FR cards, versions and sizes refer to stand builds describing the differences between the two routes. Android is the package and the web container inside it. iOS is a separate WebView shell with an edition of web resources. Safari, the native app and WebView are counted separately. The latency and balance movement figures below are recorded in the testing logs.

For each brand, half of the original French inventory was independently selected, rounding to a whole record half-up. From the resulting set, 30% were removed, by the same rule. The order was shuffled separately. This set includes positive and negative cases for the cashier. Currencies, banks, processors, card products, payment networks, crypto assets and apps have different roles. Full samples are placed after the dossiers. The executable route in the profile is given separately from the payment matrix.

ENV-FR-4RABET · mobile series conditions

I compared Android APK and iOS WebView separately on NET-W; brightness 55%, power saving off, charge at the start of the resource series 80%, duration 15 min, room temperature 22 °C. I measured the case temperature in the profile with a contact sensor at one point on the back panel; the stated difference is not a subjective sensation of heating. iOS WebView — operator container, and Safari — separate browser route.

Verification	Android	iOS WebView	Result
Receipt and installation	APP-FR-4RABET-A: package APK, version/build and size in the passport	APP-FR-4RABET-I: WKWebView container and a separate edition of resources	I completed the installation route and the first launch in the profile; access to the public distribution and its signature are described separately.
Update	New build over the previous one in the same channel	Container update separately from web resources	I preserved the history and currency of EUR; the accepted round was not debited again.
Notifications	Request after opening the push setting	Request after an action in the notification setting	I denied permission; the demo and history were preserved.
Biometrics	System biometrics after the first login	Face ID after the first login	I checked the repeat login; biometric failure returned to password entry and did not disable KYC.
External callback	Return to the same ID of the cashier	Return from Safari to WKWebView	I received the previous status; there was no second credit.
Rotation	Portrait → landscape → portrait	Portrait → landscape → portrait	I preserved the selected amount, buttons and history; the current rate remained unchanged.

Verification	Android	iOS WebView	Result
Network change	NET-W → NET-M → NET-W	NET-W → NET-M → NET-W	I reconciled the accepted ID before the retry; before acceptance debit 0, after acceptance the original settlement was restored.
Product boundary	Operator application	Operator application	No standalone Tower Rush application is created; Betclic France does not receive the cash catalog of Tower Rush.

I performed five attempts of each action on each platform. In the rows with 4/5 the fifth attempt ended in a timeout of 10.000 s; it is not included in the average of successful launches. The first four numbers refer to attempts 1–4. After the timeout I reopened the history rather than submitting a new bet. The cold and warm intervals ended with an available lobby control; the separate game launch — with an available Build button in FUN.

Thus, victory can be achieved with a result of 2:1 or 2:0.

For cryptocurrencies, crediting occurs only after the required number of confirmations in the network is received.

What to do if the deposit has not arrived?

If you topped up your account but the funds have not yet appeared in your balance — there is no need to worry.

In most cases, the delay is related to the technical specifics of payment processing on the side of the bank, payment system or blockchain.

Below is a step-by-step guide that will help you quickly sort out the situation.

Observed names and indicators: Step 1. Check the waiting time.

Before panicking, make sure that the regulated crediting time has indeed passed:

- Bank transfer / Card: instantly.
- P2P bank transfer: up to 30–60 minutes.
- Cryptocurrency: the time depends on the blockchain network load and the required number of confirmations.

Observed names and indicators: Option A: If you topped up by card or P2P.

Please prepare a screenshot/photo of the receipt or a receipt from your banking app or electronic wallet. The receipt must clearly show:

Observed names and indicators: ▫ The transfer amount;; ▫ The date and exact time of the operation;.

- The recipient's details (the card or wallet number to which you sent the funds);
- The payment status (must be “Successful” or “Completed”).

Observed names and indicators: Option B: If you topped up with cryptocurrency; To record and review the request, you will need:.

- A link to the transaction in the blockchain or the transaction hash (TxID / HASH ID).
- A screenshot of the transaction — if the payment was made via Binance Pay.

Observed names and indicators: Step 3. Contact support.

Once you have prepared the necessary data, send a request to our online chat:

1. Open the support online chat.

2. Briefly describe the situation and attach the prepared files (receipt screenshot, hash or link).

“Processing” status (for cards): If the payment is stuck in your bank with the status “Processing” or “Awaiting confirmation”, we will not be able to credit it until the bank finally debits the funds.

Network waiting (for crypto): Checking cryptocurrency transfers may take some time, as the crediting speed directly depends on the transaction processing in the blockchain network.

Security: Never give your full card details (CVV code, PIN codes or passwords) to anyone. To confirm a deposit, support only needs the operation receipt or the transaction hash.

Football is the most popular sport in the world, so it is no surprise that football betting is highly popular among bettors. The game has millions of fans worldwide, and the number of local, European and world championships runs into the hundreds. The most prestigious international championships include the World Cup, the Confederations Cup, the Olympic Games, the European Championship and the UEFA Super Cup.

On these and other key football events, Parimatch Uzbekistan accepts bets in live, pre-match, and you can also Parimatch download for Android and play in the app. In live, clients of the bookmaker can also get access to exclusive bonuses, boosted odds, and live video broadcasts. The procedure is fundamentally no different from placing pre-match bets, but it is important to be able to analyze odds and make a decision to place a bet in a

matter of seconds.

Observed names and indicators: Types of football bets.

Parimatch Uzbekistan offers an excellent selection of local and international football competitions. Any registered user who has previously topped up their account can place sports bets on football. The bookmaker's line and odds depend on the importance of the event, so the best conditions can be found on international championships. Among the most common markets available for football bets:

Observed names and indicators: Outcome (win of one of the teams/draw);; total over/under (number of goals scored/pucks/points);; double chance (1X, 12, X22);; to qualify (the team that will advance to the next round of the competition);; both teams to score;; next goal;; half time/full time (outcome of the first half of the match);.

scoring by halves!

This is only a separate part of the available markets. But football bets can be more diverse, especially in live, where additional outcomes will appear during the match.

Observed names and indicators: Features of football betting.

Before starting to place bets online, it is important for the bettor to study the rules and features of the chosen discipline. You should also learn to analyze factors that can change the outcome of events. Thus, an online football bet cannot give the desired result without knowledge of the teams' current form, the presence of injured or suspended players, and changes in the coaching staff.

In football, matches are played on a field with grass or artificial green turf. Therefore, it is additionally recommended to check the weather forecast and determine which of the teams will have the home field. Here matches consist of two halves of 45 minutes each, with a possible penalty shootout series (if the winner was not determined during regulation time).

To compile it, you will need to analyze the teams' form, lineups, the venue of the match, statistics of past games, and motivation. Additionally, study and analyze rumors and news, since even changes in personal life can affect the quality of the footballers' play.

Observed names and indicators: Football betting strategy.

When placing online football bets, you need to remember the importance of quality preparation and understanding of the sport's features. Additionally, you can use one of the effective strategies. Among the most

popular systems:

"Against the draw" — place bets on the fact that "the teams will not draw".

Percentage of the bank is a strategy that involves placing bets of the same size, calculated as a certain percentage of your bankroll.

Live betting towards the end of the game – the essence of the system is to start placing bets online after minute 85, when the probability of predicting the outcome is at its highest!

You can follow one of these strategies or choose your own. It is recommended to test the selected schemes with a minimum bet before applying them in the chosen match.

Handball is a relatively young sport. The first competition in it was held at the 11 Olympics in Germany, and only afterwards did world and European championships begin to be organized. Bets on handball are gaining popularity, and many bookmakers include them in their lines with the possibility of making various types of predictions.

This game is played indoors on a court with dimensions of 40 by 20 meters. A team consists of 7 players, 6 of whom play on the court and one goalkeeper. The aim of the game is to score as many goals as possible into the opponent's goal. The match consists of two halves lasting 30 minutes each. Between the halves there is a 15-minute break. Handball is played with the hands; there are a number of rules limiting the ability of one team member to hold the ball in the hand for no more than 3 seconds. To place bets on handball, you must perform Parimatch login to your personal account and gain access to events and odds..

Observed names and indicators: Types of handball bets at the bookmaker Parimatch.

Handball is a team game and bets on this game are classic for bookmakers. Each type of handball bet has certain specific features. And now about each of them in more detail:

on the outcome. The gambler can bet on the victory of the first or second team, as well as on a draw. Most often, the highest odds are offered on a draw, due to the fact that an equal score at the end of the game is extremely unlikely. A match with two teams approximately equal in capabilities has odds on each of them not lower than 7.00;

on the total. In handball, as a rule, there are always a lot of goals during the game. A bet on the total involves a prediction of the specific number of goals conceded during the match;

on the individual total. In this case, the gambler needs to make a prediction of the total number of goals scored by a specific team;

on the goals of two teams. The bet is similar to the total. Here you need to predict whether the teams will be able to score a certain number of goals. For example, each team - 30 goals;

on the exact number of goals scored. One of the most difficult bets, with high odds. A bet on a win with an exact goal difference;

combined bets. The gambler has the opportunity to bet on the victory of one team and on the overall total, etc.!

Read in more detail about all types of bets on the official Parimatch website and, if desired, seek advice from technical support specialists.

Where to bet on handball?

Modern bookmakers offer players a diverse and rich betting line. Handball is increasingly gaining popularity in the betting sphere. The line for this game can be found on many CIS bookmaker websites. However, do not rush to start cooperating with the first institution you come across. Carefully study its terms, read reviews about it, and only then make a decision. When choosing a bookmaker for handball betting, pay special attention to how many years the bookmaker has been operating on the market, what its rating is, and what odds and margin it offers. Also consider the possibility of receiving bonuses upon registration or for active activity on the platform. One of the most trusted bookmakers for handball betting in Uzbekistan is considered to be the bookmaker Parimatch Uzbekistan, whose services have been used by a huge number of players for many years.

Where can I find information about handball betting?

Information about handball bets must be provided by the bookmaker that has included this sport in its betting line. In a special section of each operator, the rules of the game, the schedule of tournaments, the description of odds calculation, etc. are described. In addition, numerous thematic forums are also full of information about bets and opportunities at various bookmakers. However, these sources must be treated very selectively in order not to obtain false information.

What do you need to know about handball predictions?

Before proceeding to predictions for any sports events, it is extremely important to study in as much detail as

possible the sport on which you intend to bet. As for handball, here it is not advised to bet on the underdog. Here, by analogy with football, a random goal scored in the last seconds very often decides the outcome. Weak teams extremely rarely win thanks to luck, which is why one should bet on the losing team only with a positive handicap.

A betting strategy for handball is extremely important for both beginners and experienced players. Do not try to make predictions at random, this never ends well. Your bet will win only if you have previously done good work analyzing previous championships, studying all the participants of each team, and objectively assessing the capabilities of the lineups.

It is best to place a bet on the total in live mode. Follow the match, especially if a clear favorite and a clear underdog are playing. There is a huge probability that the winner will not want to expend much effort for a clear victory, but will simply beat the opponent on class. Teams equal in strength, as a rule, are characterized by approximately equal numbers of goals scored. As for favorites and underdogs, each time the result is unpredictable.

On the web there are many both paid and free strategies that a gambler is recommended to try in test mode and only then proceed to real predictions. When placing bets, manage your bank sensibly and be sure to apply a strategy. It is recommended to apply classical analysis before the game and then start watching the broadcast, placing bets in a justified manner. Keep in mind all the features of handball and its differences from other team games.

Each distributor of gambling content is connected under a direct contract, officially, without scripts and makeshift ports. As a result, our clients receive the best online casino games that have a certified RNG, adaptive bet and bonus settings, transparent payout tables, and uptime that allows spinning the reels under conditions of maximum session continuity. Finally, the video slot catalog is updated weekly, and our own «Parimatch Exclusive» showcase adds branded slot machines unavailable outside the resource.

An even larger portfolio of entertainment enriches the Pari Match live casino, whose collection is formed by gambling companies of the level of Evolution, Pragmatic Play Live, Ezugi and a dozen other well-known providers. So the "TOP" tab in the live dealer section contains such hits as Crazy Time, PowerUp Roulette, Speed Baccarat A, VIP Blackjack 13 - Emerald, etc. Note that sorting by type — roulette, blackjack, baccarat, poker, interactive shows — saves you from aimless scrolling, and the "HD" icon guarantees the highest quality broadcasts even on mobile LTE.

Besides the main action, the Pari-Match casino also offers fast and TV games, bingo and virtual sports. The club's administration maintains a permanent section of tournament events with large prize pools, often crossing the $10-20 million mark. There is a leaderboard for big wins and busted jackpots, and all this splendor can be played both in demo version format for familiarization (except for Live Casino) and for real money, including bonus funds.

Observed names and indicators: Parimatch slots online.

In the slot hall of the Parimatch online casino, eclecticism and abundance reign. Here any irresistible temptation of Fortune will find its ideal response.

"Gates of Olympus" will build an endless tumbling chain of combos on six reels, where a sudden multiplier multiplies the win many times over. "Fire in the Hole 3" turns every fall of symbols into an xBomb salute, opening new rows and stretching the machine's giving potential of characteristics. For fans of fixed lines, "Book of Ra Deluxe" will suit as a classic "book" slot with an expanding symbol. For hunting cluster payouts, test "Starburst Galaxy"; for retro connoisseurs, we recommend playing "Mega Joker". If you are looking for new sensations, launch "Gates of Hades", which breaks the canonical cascading grid into two game phases with different volatility.

Ultimately, you can also pick a list of personal favorites yourself using the "Favorites" tab, adding slot machines from the following categories to it:

Buy Spins — displays all slots with bonus buy. The ideal choice for those who are not used to waiting for luck, preferring instead the ability to instantly activate a free spins round or another prize round without preamble.

Jackpot — a selection of games with progressive and fixed jackpots. That is what logging into the Parimatch casino is worth doing for.

Easter Holidays — seasonal titles with an Easter theme and often favorable RTP-dynamics for payouts.

Drops & Wins — Pragmatic Play network tournaments with cash prize drops at random moments.

Recommended — an algorithmic short-list. The official Parimatch casino website automatically ranks new releases and "long-playing" favorites according to the personal statistics and preferences of the registered player.

Megaways — video slots with transforming reels. In them, the number of symbols changes between rounds, and the number of ways to win reaches hundreds of thousands.

All Slots — the complete registry of slot machines, without limiting the output.

Table Games — digital roulette, blackjack and poker for fans of the classics without a real dealer. In other words, this is where simulators of the most in-demand table entertainment of the Pari-Match casino are concentrated.

Instant Games — instant scratch cards, crash machines, other fast formats of gambling for real money and for free.

Non-Stop Drops & Races — online slots participating in tournament marathons with a common leaderboard, where points are awarded for multipliers rather than for the bet denomination.

Turbo Wins — extremely volatile machines with ultra-fast spins.

Parimatch Exclusive — proprietary titles unavailable on third-party domains.

Trending / New Releases — a dynamic feed of timeless hits and debutants that blew up the gambling community, updated almost daily.

This division makes it possible to filter the Pari Match casino library to suit your own temperament and assemble an individual "playlist". At the same time, it is important not to forget about a responsible approach, because playing for free in demo is one thing, and risking hard-earned funds is quite another. To avoid problems with gambling addiction, set time and deposit limits in advance, and treat winnings as a pleasant bonus to an exciting pastime, not as a source of income.

Standard types of cricket bets come in several variants:

on the win. Placing a bet on a team's victory. But sometimes in cricket there is also a draw, both by score and by time. Most bookmakers do not give the opportunity to bet on a draw, but if it suddenly happens, the company returns the funds to all gamblers who bet on the win;

on winning the tournament. A cricket tournament does not have a large number of participants, which makes it easy to analyze the lineup and bet on this market;

on the bowler. For cricket, it is extremely rare when one of the team members plays significantly stronger and more professionally than everyone else. Betting on the best player is quite risky, however such bets always have high odds;

on the total points of the best player. In this case, the gambler makes a prediction on the individual results of the team members;

mixed bets!

Before starting cooperation with any bookmaker, be sure to study the nuances of betting, analyze how the strategies work, make test predictions, and only then start real earning on bets.

how many years it has been operating in the market. Old companies have managed to earn the trust of clients and their long activity itself speaks of the transparency and legality of all all of its services;

whether there is a bonus system. The presence of bonuses and promotional offers give the opportunity to get free bets or withdraw won funds after fulfilling certain requirements of the bookmaker. Observed names and indicators: UFC;; Bellator;; ONE FC;.

KSW.

If you have long wanted to receive dividends without leaving the confines of your own apartment, then with the help of sports betting making the dream come true will be easy. Betting on martial arts is available at any time. Many bookmakers offer excellent odds on such sporting events. Also, for betting you can use ready-made predictions so that the bet wins with high probability.

How to bet on Martial Arts in Uzbekistan?

Making money on the victory of your favorite athlete is quite simple. You only need to choose a bookmaker that you can fully trust. The next step will be registration on the website, which usually takes a minimum of time. In order for bets on UFC fights to be accepted, the bettor will need to top up their own deposit. Additional amounts for betting can be obtained by participating in various bonus programs from Parimatch, which you can familiarize yourself with on the official website of the platform. This sport remains fairly predictable. Titled fighters will with high probability win over a newcomer. The spectacular nature of this sport is another reason to start betting today.

You can bet on a fight in the form of an accumulator or a single bet. A bookmaker may either separate mixed martial arts into a separate category or combine it with traditional boxing matches. Parimatch Uzbekistan offers a broad selection of markets. On the website you can regularly find interesting offers for betting on title matches. You can bet not only on the outcome, but also on the total, which is available even in routine fights.

Betting on MMA on the Parimatch website takes place in the Boxing/Martial Arts category. Having selected this section, the bettor will be offered a list of organizations, for example, UFC or Bellator. Next, you will need to choose a specific sporting event that the player is confident in betting on. All that remains is to choose the outcome and set a suitable bet size.

Observed names and indicators: Types of bets on MMA.

A detailed study of the features of sports disciplines is the starting point for achieving excellent results during sports betting. Mixed martial arts is no exception. Players can bet on the outcome of a fight by knockout or technical knockout. Either fighter can win, so before the match you need to familiarize yourself with their fighting style and skills. Points are counted in each round, which helps determine the winner during a bout between two equal opponents. In mixed martial arts a draw is provided for, but it happens extremely rarely, so most bookmakers do not even set this outcome option as possible.

You can place bets on MMA fights on the total by rounds. During a fight between fighters who use the same

style, the bookmaker may offer a total bet. The duration of rounds is usually 5 minutes, and their number does not exceed three periods. At the same time, during title fights the conditions may change somewhat. For example, instead of 3 rounds, five may be required to determine the winner. If you bet on a total greater or less, you can win a payout simply by studying the fighter's strategy. For example, many athletes like to perform in an economical mode, winning within 1-2 rounds. In such a case, betting on a total less than 3.5 will be a profitable decision.

To bet on no-holds-barred fights and win, it is necessary to determine the establishment's rules regarding the settlement of completed rounds. Some bookmakers may consider a round completed in which a fighter landed a crushing blow, while other platforms count as settled only those rounds that ended upon the expiration of the allotted time.

The line may also offer bets on early completion of the match. Since mixed martial arts involve fighters with different skills and styles, such an outcome is quite realistic. Fighters who adhere to boxing tactics more often finish bouts early. The situation looks completely different when the opponents focus on ground fighting. In this case, the bout may drag on considerably and end only after the set number of rounds has elapsed.

Bookmakers also accept bets on the method of victory. A match can end early by:

Observed names and indicators: knockout;; technical knockout;.

submission of the opponent.

The traditional victory option is a judges' decision after the allotted time has ended. In some cases, you can bet on a split or unanimous judges' decision at the end of the match. If this is a title fight, the betting menu will be broader, which players who wish to diversify their betting line should take into account.

Observed names and indicators: Advantages of betting on Martial Arts.

Every player has their own reasons for choosing a particular sports competition for betting. Mixed martial arts have gained enormous popularity not by chance. Players can easily track athletes' statistics before a bout. You can find out how comfortable a fighter is competing against boxers, wrestlers or representatives of other styles. You can also find information about recently sustained injuries and how effectively the fighter recovers after them.

It is definitely worth studying the statistics regarding head-to-head meetings between athletes. If one of them has a clear advantage in victories, then his win looks like a more likely outcome of the confrontation. Predictions also help to bet correctly on mixed martial arts. On the internet, there are many predictors who describe in detail the basis on which they came to one conclusion or another. At the same time, bettors are better off conducting pre-match analysis themselves and only comparing their conclusions with the expert's opinion.

For betting, it is also necessary to understand the odds set by the bookmaker. It happens that value offers appear in the line, and they should definitely be taken advantage of. Value bets in mixed martial arts mean fights where the bookmaker has incorrectly identified the potential winner or other outcomes, so the odds on the real favorite will be higher than they should be. Value bets allow you to earn on sports while reducing the likelihood of losing personal savings.

Mixed martial arts are very popular, so many fights can be watched live. This allows you not only to get money thanks to the victory of your favorite player, but also to improve your own mood by engaging in your favorite activity. A rational approach to betting always bears fruit.

Where to bet on Martial Arts?

For betting on mixed martial arts today, there are many bookmakers. Bettors are best off taking advantage of the

offer of a platform that has many years of experience and a high reputation among players. Parimatch is one of exactly such establishments for betting on sports.

Where to find information about MMA betting?

Information for mixed martial arts betting is always freely available. To find it, it is enough to use the internet and study the search results for the corresponding query. Players who use modern platforms for betting, where extended statistics are presented, can make the task easier for themselves.

What do you need to know about predictions for martial arts?

Predictions are used to increase the chances of winning during sports betting. That is precisely why it is so important to find a trusted predictor who will base their own judgments on thorough analysis. Otherwise, the prediction can hardly be called effective.

Table tennis unites millions of spectators and fans around the world. This sport has gained popularity due to its high dynamics, as well as simple and understandable rules. It is worth betting on table tennis simply because the outcome of matches in this sports discipline is fairly predictable. Players only need to choose promo codes Parimatch and understand the types of bets, as well as determine the favorite in the match through simple analysis.

Observed names and indicators: Table Tennis betting opportunities at the Parimatch bookmaker.

This sport is distinguished by the fact that each game lasts 3 minutes. A rally usually takes up to 8 seconds, so players do not have to wait long for the match to end. Such features make the match interesting both for pre-match betting and in the live section. A meeting can be played to two, three or five wins, and players must change sides of the table after each set. Given the incredible dynamics of the match, bookmakers constantly change the odds on players' victories, so finding truly good quotes on the favorite will be quite easy.

Serves alternate, but given the frequency of serves, this does not have a decisive influence on the outcome of the

match. The situation is completely different in big tennis, where the player who serves has a serious handicap. Table tennis equalizes the chances of the serving and receiving sides, so during analysis such nuances can be ignored.

A completely different attitude should be taken to the manner in which a particular athlete plays. Pre-match analysis becomes the key to success for players who decide to bet on table tennis. It would also be useful to observe several meetings between players before choosing a favorite among them and betting on him.

Table tennis betting today takes place within several tournaments. Each of them has a certain regulation, which should be reviewed in advance. The organizer must indicate the maximum duration of the meeting, for example, up to 7 sets. In accordance with the Olympic rules, which are the most common, the game is played to 4 wins. In less popular tournaments, the game can be played to 3 wins or up to 5 sets.

What types of Table Tennis bets does the bookmaker offer to its visitors

To receive dividends during sports betting, a player will need to familiarize themselves in detail with their specifics. Individual sports allow less time to be spent on preparation. At the same time, table tennis also allows matches to be played in pairs, which must be taken into account before starting the game. The advantage of this sport for the players themselves is that bookmakers can offer a very extensive line and markets. In addition to standard bets, additional outcomes can also be used:

totals bet.

The types of table tennis bets allow each player to choose their own effective strategy for winning. Betting on one of the sides to win is the simplest way to earn from sports. In table tennis, the possibility of a draw based on the match result is simply not provided for. For this reason, players are offered only two main outcomes. Another interesting option is a bet on winning a specific set. This option allows you to receive a payout significantly faster, without waiting for the entire match to finish.

You can bet on table tennis with a handicap, which is a very common choice among bettors. This option involves setting an additional handicap for one of the sides. The handicap can be by points, by games, or by scoring in a separate set. Before choosing such a bet, you need to find out how many sets the match will last. Most often, tournaments are held with five or seven sets, that is, up to 3 or 4 wins respectively. For this reason, the handicap will not be greater than 3.5. If you choose a handicap by points, it can be very different. When choosing such an option, it is better to focus on the players' style rather than on the size of the handicap.

To make table tennis bets even more exciting, the bookmaker may offer its players totals bets. This is a classic type of outcome in betting, in which the player needs to predict the possible scoring during the sports event. As with the handicap, the totals bet is presented in several variants. This can be either a bet on the total number of games or bets on the total points scored in the match. You can also place a totals bet on a specific player, determining their likely effectiveness in attack.

There are also additional types of bets available with certain bookmakers. An additional bet usually involves predicting the final result of a sports event. For example, bettors may be offered to predict how many sets and games will be played by the athletes. Predicting the score by sets may also be considered an outcome. The bookmaker may offer to predict whether the number of sets will be even or odd. An interesting outcome is determining who will take the first set.

Observed names and indicators: Detailed specifics of the betting pool in online bookmakers.

Having studied the proposed betting options, it is easy to discover that much of the success in sports betting

depends on the analysis carried out before the start of the match. Experts who follow this sports discipline offer their forecasts for upcoming sports events. It is worth noting that in our country table tennis gained wide popularity relatively recently, so the quality of forecasts often leaves much to be desired.

It is for this very reason that experienced bettors always handle their pre-match preparation themselves. All the necessary information is available on the internet, so to increase your personal chances of winning it is enough to carefully study the upcoming matches. As practice shows, competitions featuring athletes from China often end in their favor. It is in this country that table tennis has become incredibly popular, which is why quite a few tournaments are held on its territory. At the same time, the CIS countries also have a decent table tennis school, so domestic athletes can contend for high honors.

To increase your own chances of winning, it is very important not to have personal favorites among the players. Do not forget that betting is a source of income, so emotional bets often lead to losses. It is better to study in detail the athletes' form, their results in head-to-head matchups, as well as the nuances of the tournament, and only after that draw a conclusion. The odds set by the bookmaker also help form a correct idea of the upcoming match. Favorites always receive lower odds, so to get the biggest payout it makes sense to bet on the underdogs if you are confident in their victory. Do not forget to experiment with strategies, which will allow you to find the most effective method for betting.

Wagering is the bonus wagering condition that the company sets for the player.

This is how many times the player must wager their money before the funds are transferred to the main balance.

Currently, wagering applies only to some Welcome bonuses; all other promotions have no wagering.

If the player made a deposit of 100$ under a promotion with a wagering condition of x25 (for example, “Casino bonus 200%”), this means that they must place bets totaling 200$ X 25 = 5000$.

Both lost and won bets count toward the total wagering amount.

Bets of Cashout or with odds of 1.00 are not counted.

Observed names and indicators: SPORTS RULES; Main markets.

The terminology used in these rules may vary depending on the sport. For example, outcomes may be described as goals (in football), points (in basketball), sets (in tennis), maps (in esports) or rounds (in boxing). Similarly, participants may be teams, individual players or pairs; time segments may be called a match, half, quarter, period, map or round; and competitions may be called tournaments, leagues, championships or cups. These examples are provided to illustrate possible differences across different sports.

Match winner – predict the winner of the match.

Bet on the 3 outcome – predict the outcome of an event that has three possible results: the first team wins, a draw, or the second team wins.

Bet on the 2 outcome – predict the outcome of an event that has only two possible results: the first team wins or the second team wins.

Total – predict whether the total number of goals scored by both teams in the match will be more or less than the specified number. If the final total is exactly equal to the specified number, the bet will be void.

Handicap – predict which team will win after the handicap is applied to the actual score. A positive or negative number of goals is added to the team's final score. If the result including the handicap is a draw, the bet will be void.

Double Asian handicap is a bet with a handicap (H) that is a multiple of 0,25 but not a multiple of 0,5 — for example: H = -0,25, +0,25, -0,75, +0,75, etc.

Such a bet is interpreted as two separate (simple, "half") bets with the same odds, using the nearest handicap values that are multiples of a quarter point: H1 = H - 0,25 and H2 = H + 0,25.

The stake amount for each "half" bet is equal to half of the total amount of the "double" bet.

Double total is a type of total bet where the total value (T) is a multiple of 0,25 but not a multiple of 0,5 — for example: T = 2,25, 2,75, 3,25, etc.

This bet is also interpreted as two separate (simple, "half") bets with the same odds, using the nearest total values that are multiples of a quarter point: T1 = T - 0,25 and T2 = T + 0,25.

Below are simplified four settlement options for such "double" bets:

Example 1. Both "half" bets are won by the Client.

In this case the payout (S) is S=k*C.

Observed names and indicators: Where k is the odds specified in the line,.

C is the Client's stake amount.

To settle an "accumulator", the odds K = k are used.

Example 2. One "half" of the bet is won and the other is void.

In this case the payout (S) = (k + 1)/2*C.

And to settle the "accumulator", the odds K=(k + 1)/2 will be applied.

Example 3. One "half" of the bet is void and the other is lost.

In this case S=0.5*C, and to settle the "accumulator", the odds K=0.5 will be applied.

Example 4. Both bets are lost.

In this case S=0, and the odds for settling the "accumulator" are K=0.

Double chance – place a bet that covers two of the three possible outcomes: home win or draw (1X), away win or draw (X2), or either team wins (12).

HT/FT (First half / Regular time) – predict both the first-half result and the final result. Extra time is not taken into account. In the app, outcomes are designated: 1 (first team wins), 2 (second team wins) or X (draw). The first symbol indicates the first-half result, and the second indicates the final result. The result of the second half alone does not matter. The desktop version uses team names and the word "Draw".

Example: If the match ends with the score 1:1 and the first half was 1:0, then in the app the outcome "1/X" wins.

Correct score – predict the exact final score of the selected match.

Result and total – predict both the match outcome and whether the total will be more or less than the specified number.

Race to N goals – predict which team will score the Nth goal first.

Both teams to score – predict whether each team will score at least one goal during the match.

Own goals are counted in favor of the opposing team.

Finish Nth – predict the final position that the selected team will take.

Team to score the Nth goal – predict which team will score the Nth goal in the match (for example, the 1st, 2nd, 3rd goal, etc.).

Comparison of half scoring – predict in which half both teams together will score the most goals.

Score difference – predict the exact margin by which one participant (team or individual player) will beat another, measured in goals, points, time or any other relevant unit depending on the sport.

In the event of a delay due to rain or another interruption, the clock stops and resumes when play continues.

Official time is determined primarily using the ESPNcricinfo scoreboard. If the match is abandoned before the player has the opportunity to come out to bat, all bets will be void.

We reserve the right to use our own judgement to settle the market if ESPNcricinfo provides incomplete or clearly incorrect information.

Time spent in the Super Over is not counted.

Cosmetic damage or minor cracks are not counted. Only incidents occurring during live play count — not during warm-up or after the match.

This market is calculated based on our internal sources and viewing of official broadcasts. External websites or third-party reports are not used for calculation. Our decision is final, especially in cases where official confirmation is absent.

Only completed legal deliveries are counted.

If the batsman retires hurt and is replaced by another player, this does not count as an out. The market will not be settled until the wicket falls.

If the innings ends naturally (a declaration of closure or the team reaching its target), the final number of balls faced will be settled only if it was possible to exceed the predicted totals. Otherwise, bets will be voided.

Any bet placed when there is no further play after that will be voided unless the outcome has already been determined.

Observed names and indicators: If the match is interrupted by rain:.

Bets will be settled if the total has already been exceeded.

Bets will be voided if the outcome is not yet determined and play does not resume.

Observed names and indicators: Out on the delivery.

Will a wicket be taken on the specified delivery? Only a wicket officially credited on the specified delivery is counted, regardless of whether the delivery is legal or illegal.

An illegal delivery (e.g. a wide ball) counts as a separate delivery.

If the specified delivery does not take place for any reason, bets on that delivery will be voided.

Observed names and indicators: Out or boundary on the delivery.

Only an extra run officially credited on the specified delivery is counted, regardless of whether the delivery is legal or illegal.

An illegal ball (e.g. a wide) counts as a separate delivery.

Observed names and indicators: First contact on the delivery.

What will be the first contact after the bowler bowls the specified ball?

Will it be the bat, the batsman, the wickets or something else (i.e. none of the above)?

If the first contact cannot be determined (e.g. simultaneous contact with bat and pad), bets will be voided.

The delivery does not have to be legal — illegal balls (e.g. a wide) count as deliveries.

An over with 2 wides will consist of 8 deliveries, not 6 legal ones.

Observed names and indicators: Boundary in the over.

Only boundaries credited to the batsman's score are counted.

Byes, leg byes or wides are not counted.

A boundary hit off a no-ball will be counted only if it is credited to the batsman's score.

The over must be completed in full unless the team is All Out, declares the innings closed or reaches its target within that over, unless the outcome has already been determined.

Overthrows are not credited to the batsman's score and therefore are not counted for this market.

Observed names and indicators: First scoring shot.

1, 2, 3, 4, 6 or Other.

Overthrows, runs for fours and sixes are not counted.

Observed names and indicators: Next boundary: 4 or 6.

Will the next boundary be 4 or 6?

Overthrows, fours off the bat and sixes are not counted.

If no boundary is hit after the bet is placed, bets will be void.

Observed names and indicators: Boundary side.

Will the next boundary be hit on the off side or the leg side of the field?

The off side/leg side is determined by the batsman's position at the moment of the bowler's run-up.

Switch hits or reverse sweeps do not change the determination of the side.

If it is not possible to determine which side the boundary was hit on, bets will be void.

Observed names and indicators: Extra type.

What will be the next type of extra conceded by the bowling team?

Possible outcomes: wide, no-ball, leg-bye, bye or penalty runs.

If no further extras are conceded, bets will be void.

Observed names and indicators: Wide type.

On which side of the field will the next Wide be bowled?

Options: off side, leg side or other (above head height).

If it is not possible to determine the type of wide, the bet will be void.

Observed names and indicators: No-ball type.

What will be the type of the next no-ball?

Observed names and indicators: Possible options:; - front foot over the popping crease (Front Foot); - other type of infringement (Other).

Observed names and indicators: Player who will take the catch.

What type of player will take the next catch?

Options: wicket-keeper, bowler or fielder.

Settlement is based on the player's role at the moment of the catch.

If no catch is taken after the bet is placed, the bet will be void.

Observed names and indicators: Ball count at the moment of the catch.

How many legal balls will have been bowled in the innings at the moment of the next catch?

Wides and no-balls are not counted in the total ball count.

Observed names and indicators: Boundaries on deliveries.

All specified balls in the over must be bowled, otherwise bets will be void.

Only boundaries hit off the bat are counted — overthrows, fours off the bat and extras are not counted.

The specified ball must be legal and completed, and a boundary must be hit off that ball for the bet to be settled as a win.

If there are additional deliveries (for example, a wide followed by 4), this will only count as a win if the boundary was hit off the bat on a legal ball.

Observed names and indicators: Singles on deliveries.

A single is defined as a legal delivery from which 1 run is scored off the bat and credited to the batsman's score — extras are not counted.

The specified ball must be legal and completed.

If a single follows a wide, the ball will not count as a single (2 run is credited).

If a dot ball follows a wide, this will not count as a single, as 1 runs were not scored off the bat and were not credited to the batsman's score.

Observed names and indicators: Dot balls on deliveries.

A dot ball is defined as a legal delivery from which no runs are scored, including extras.

If a dot ball follows a wide, the ball will not count as a dot ball — 1 run will be credited to that ball.

If goals are scored in the match, the minutes in which they were scored divide the match time interval (from 0 to 90 minutes) into n + 1 goal-free time intervals.

The length of the goal-free time intervals is determined as the difference between the minutes of the first goal and the start of the match, the minutes of consecutively scored goals, and the minutes of the end of the match and the last goal — the start of the match is equal to 0 minutes.

If there are no goals in the match, this means that the match had only one goal-free time interval of 90 minutes.

The minutes of goals scored in stoppage time added by the referee are the 45th or 90th minute.

The innings must be fully bowled, unless the batting team is "All Out" or reaches its target, otherwise bets will be void — unless settlement has already been determined.

Observed names and indicators: Runs off ball x.

All runs scored off that ball count; the ball must be legal and bowled. Any illegal deliveries ("wides" and "no balls") will not count as balls for the purposes of this market. For example, even if two "wides" were bowled in this over, there will still be only 6 legal balls in the over. For clarity, if the specified ball is a "wide" followed by a boundary four, the market result will be settled as 5. The ball must be bowled legally for bets to stand. If the specified ball is a "no ball" leading to a "free hit", runs scored off the "free hit" will count. For example, if the ball is a "no ball" followed by a six off the "free hit", the market result will be 7.

Observed names and indicators: Method of dismissal.

Methods of dismissal include only: Bowled, Caught, LBW, Run Out, Stumped, Obstructing the Field, Hit the Ball Twice, Hit Wicket and Timed Out — any wicket not named will be considered "Other". If a batsman retires, this is not considered a dismissal for settlement purposes. The market will be settled on the method of dismissal for the specified wicket number, regardless of whether the players are different due to retirements or for other reasons. If the innings ends and the specified wicket does not fall, all bets will be void.

Observed names and indicators: Most fours; Most sixes.

For bets to stand, there must be an official match result, unless the settlement has already been determined (the team batting second has already surpassed its target). Fours/sixes in the "Super Over" are not counted.

For bets to stand, there must be an official match result, unless the settlement has already been determined (the total has already been surpassed). Only four boundaries hit by the bat are counted — overthrows, all runs on fours and extra runs are not counted. Fours/sixes scored in the "Super Over" are not counted.

Observed names and indicators: Batsman's fours; Batsman's sixes.

Only boundaries scored as fours/sixes hit with the bat count — overthrows, all runs scored as fours and extra runs do not count. Fours/sixes hit in a "Super Over" do not count.

Observed names and indicators: Four in the next over; Six in the next over.

Only fours/sixes credited to the batsman's score count. "Byes", "Leg byes" or "Wides" do not count. Fours hit off a "No Ball" will count if the four is credited to the batsman's score. The over must be completed in full unless the batting team is "All Out" or reaches its target within the over, unless the result has already been determined. Overthrows are not credited to the batsman's score and therefore do not count for the purposes of this market. If a total of six runs is scored off a single delivery in the over, but it is not a six hit by the batsman, it does not count for the purposes of this market.

Observed names and indicators: Wicket in the next over.

The over must be played in full unless the batting team is "All Out" or reaches its target within the over, unless the result of this market has already been determined.

Observed names and indicators: Two-over cricket.

Format of each event: team 1 bats one over (exactly 6 balls), then team 2 bats one over.

A team cannot bat fewer than 6 balls in its over.

If team 1 scores more runs than team 2, then "team 1" is considered the winner.

If team 2 scores more runs than team 1, then "team 2" is considered the winner.

If team 1 and team 2 score the same number of runs, then "draw" is considered the winner.

Observed names and indicators: Bet without the draw.

If team 1 and team 2 score the same number of runs, the market will be voided.

Observed names and indicators: Replay bets.

Before you start participating in gambling, we want to make sure you understand the importance of maintaining a healthy perspective. Gambling should not become an obsession, a primary source of income or a means of solving debt problems. We advise both current and prospective players to set a budget specifically for gambling. It is very important to monitor how much money and time is spent on online games and to assess whether this is negatively affecting your life.

If you are experiencing financial or emotional difficulties, we recommend taking a break from gambling to step back and regain control. However, some people find it difficult to control themselves and are at risk of developing a gambling addiction. In such cases, more radical measures are necessary. One option is to request voluntary self-exclusion for a specified period or for an indefinite period.

As part of our responsible gaming policy, a proprietary internal system is used to identify risky behaviour. It identifies customers who lose frequently, are at potential risk to their financial or mental health, or display aggressive or abusive behaviour when communicating with our staff. Our customer support service contacts these individuals to assess the situation and discuss the possibility of activating self-limitation or self-exclusion options.

If you believe you are at risk, we recommend that you contact us and request self-exclusion.

Observed names and indicators: RULES AND CONDITIONS; GENERAL RULES AND CONDITIONS.

Last update: 10 March 2026.

Before using this Website, as well as any games, products or services available on it, please carefully read these General Terms and Conditions.

Observed names and indicators: 1. DEFINITIONS.

1.1. In these Terms and Conditions (hereinafter – the "Terms" or "T&C"), capitalized words and expressions have the following meanings:

"T&C" – these General Terms and Conditions, which may be amended from time to time;

"Betting Agreement" – the contractual relationship between the Provider and the Client arising at the moment the Client places a bet through the Account on the Website and the Provider accepts such bet in accordance with these Terms;

"Provider" – a legal entity registered in Curacao and holding a valid gaming license issued by the Curacao Gaming Authority in accordance with the National Ordinance on Games of Chance (LOK), P.B. 2024, No. 157, with a registered legal address in Curacao;

"Payment Agent" – a legal entity receiving and remitting certain payments for and on behalf of the Provider on the basis of a relevant agreement concluded between the Provider and the Payment Agent. For the avoidance of doubt, the Provider is entitled, at its sole discretion, to use the services of several Payment Agents;

"Website" – the website available at the domain name parimatch.com, including all games, products and services available on it, which, in the relationship between the Provider and the Client, is owned and operated by the

Provider;

"Account" – an account with the Provider registered for the use of the Website and for placing bets with the Provider;

"Client" – any natural person who is the addressee of the Provider's offer (respectively, the Provider is the offeror) and who has accepted these Terms in the manner set out in section 2 of this document;

"Restricted Jurisdictions" – the following countries and territories: Aruba, Australia, Bonaire, Curacao, France, the Netherlands, Saba, Sint Eustatius, Sint Maarten, Singapore, Spain, the United Kingdom, the USA, as well as any jurisdiction identified by the Financial Action Task Force (FATF) as a high-risk country subject to a call for action (the so-called "FATF blacklist"), including, but not limited to, the Democratic People's Republic of Korea (DPRK), Iran and Myanmar.

1.2. All other terms used herein have their ordinary meaning unless otherwise defined or unless the context requires otherwise.

Observed names and indicators: 2. OFFER AND ACCEPTANCE.

2.1. These Terms constitute an offer to conclude a binding agreement on the conditions set out herein, addressed by the Provider to any natural person who meets all of the following requirements:

(i) the person has reached the age of at least 18 years or the minimum age for participation in gambling established in the jurisdiction of such person's actual location (the higher age applies);

Observed names and indicators: (ii) the person is not actually located in the Restricted Jurisdictions;.

(iii) the person is not actually located in a territory where online gambling is prohibited;

(iv) the person is not a citizen and/or resident of states in respect of which sanctions have been imposed by the Curacao Gaming Authority;

(v) the person is not a citizen and/or resident of states whose legislation does not comply with the established international standards FATF and/or states having gaps in the strategy for combating money laundering and terrorist financing according to the FATF report;

(vi) the person is not an employee, former employee or relative of an employee of the Provider or its affiliates.

2.2. By registering an Account with the Provider or otherwise gaining access to and using the Website, the offeror referred to in clause 2.1 expresses acceptance of the above offer and these Terms, as a result of which they become a binding agreement between the Provider and such offeror, and from the moment of acceptance such person becomes a Client.

2.3. By accepting the said offer, the offeror confirms and guarantees its full compliance with the requirements listed in clause 2.1.

2.4. The agreement between the Provider and the Client under these Terms is effective subject to the Client's full and continuous compliance with the requirements listed in clause 2.1 (as well as additional requirements that may apply in accordance with these Terms). In the event of the Client's non-compliance with any of the said requirements, the agreement shall be deemed automatically suspended for the entire period of such non-compliance (except for the provisions of clause 2.6).

Observed names and indicators: 2.5. For the avoidance of doubt:; the availability of the Website does not in itself constitute an offer;.

The Provider expressly disclaims any liability and does not compensate for any losses, expenses or damages

arising from the use of the Website by a person who does not meet the requirements of clause 2.1, and by using the Website, such person acknowledges this disclaimer;

any person using the Website confirms that they are solely responsible for compliance with all legal norms applicable to their activities under the laws of the territory where they are located; in addition, the person is solely responsible for fulfilling all tax obligations (e.g., income accounting, reporting and payment of taxes). In any case, the Provider is not liable for the person's non-compliance with or non-fulfillment of any legal requirements or obligations.

2.6. If a person who does not meet the requirements of clause 2.1 has registered an Account, such person irrevocably confirms that any funds deposited by them into the Account are considered a gift to the Provider, and the Provider is not obliged to return such funds unless it decides otherwise at its sole discretion. Moreover, any activity of such person on the Website is considered social gambling. In the event of a payout to such person, all such funds are considered erroneously transferred and remain the property of the Provider, and the said person is obliged to return them.

2.7. In the event of suspension of the agreement between the Provider and the Client under clause 2.4, the provisions of clause 2.6 apply for the entire period of such suspension.

2.8. The Client undertakes to interact politely with the Provider's support service, to avoid the use of profanity, threats or insults. Violations (including the use of foul language, threats or spam) may result in temporary suspension of access to support (from 1 day to 3 months) or restriction of the Account at the Provider's discretion.

Observed names and indicators: 2.9. The Client confirms that:.

(i) is solely responsible for compliance with all applicable laws of their jurisdiction, including tax reporting and obligations to pay taxes on winnings;

(ii) will not collude, use prohibited software or engage in activities aimed at manipulating game results or obtaining an unfair advantage.

2.10. The Provider reserves the right to void any betting agreement, refuse to fulfill obligations or withhold winnings if it is established that the Client:

is actually located in or is a citizen/resident of a Restricted Jurisdiction; or

Observed names and indicators: is actually located in a jurisdiction where online gambling is prohibited; or.

is an employee, former employee or relative of an employee of the Provider or its affiliates.

Observed names and indicators: 3. GENERAL PROVISIONS.

3.1. The Website may be used solely for personal purposes and must not be used to obtain any commercial income.

3.2. The Client acknowledges that individual games, products or services on the Website may be governed by their own additional rules and conditions, including, but not limited to: additional restrictions regarding the territories for which such games, products or services are offered; additional requirements for the Client in addition to those specified in clause 2.1 et al. The Client hereby expressly agrees that commencing use of any such game, product or service means the Client's acceptance of the relevant additional rules and conditions, which become a binding additional agreement between the Provider and the Client applicable to the use of such game, product or service. As to their use, the relevant additional rules and conditions prevail over these Rules.

3.3. These Rules may be unilaterally amended by the Provider at any time and for any reason (or without one) at

its sole discretion. The Provider will make commercially reasonable efforts to notify the Client of material changes by email. However, the obligation to regularly check these Rules for possible changes rests with the Client. Even without notification, the Client's continued use of the Website constitutes acceptance of all current changes.

3.4. These Rules are the basic framework for all promotions and bonuses offered by the Provider. Any special conditions of specific campaigns or promotions must comply with these General Rules and may not contradict them unless expressly stated otherwise. In the event of a conflict, these General Rules prevail unless provided otherwise. The Provider:

may at any time assign and novate any of its rights in favor of any third-party gambling operator (subject to applicable law), provided that such successor holds all necessary licenses and permits and assumes the performance of all obligations;

may at its sole discretion refuse, modify or revoke any promotion, bonus or offer where there are suspicions of abuse, manipulation, "bonus hunting" or violation of these Rules, even if no express prohibition exists. All decisions of the Provider on matters of promotion integrity are final.

3.5. Any person using the Website is deemed to have accepted all additional rules and policies available on the Website, including, but not limited to, the Privacy Policy and the Bonus Policy. In addition, as to the Privacy Policy, use of the Website is deemed consent to the processing of personal data to the extent established by said policy. Personal data is collected for account management, AML/KYC purposes and the provision of services, and is retained only for as long as necessary. The Client has the right to request access, correction or deletion of data by contacting support@parimatch.com.

3.6. The Provider uses the services of a Payment Agent, which may, at the Provider's sole discretion, act as a payment agent for any deposits, withdrawals or other settlements between the Provider and the Client. For the avoidance of doubt, any provision of these Rules on settlements between the Provider and the Client implies the Provider's right at any time and for any period to appoint a Payment Agent to receive or transfer any amounts due between the parties on behalf of the Provider. By accepting these Rules, the Client is deemed to have irrevocably agreed to this right of the Provider and undertakes to recognize such payments through the Payment Agent as valid in the same way as if they had been made directly between the Client and the Provider.

3.7. The Provider reserves the right to suspend withdrawals and/or freeze the Client's Account until all necessary verification procedures, KYC and AML, are successfully completed. The Provider may at its sole discretion request documents or information, including, but not limited to, confirmation of identity, place of residence, source of income and funds, ownership of payment accounts or video verification. Until such procedures are completed, withdrawals may be restricted.

3.7.1. The Provider reserves the right at any time to request additional documents or information from the Client, regardless of whether the Client has previously undergone initial Account verification.

3.8. For the purposes of calculating time periods, the parties agree that all time periods under these Rules are calculated according to the UTC time zone.

Observed names and indicators: 4. CLIENT'S ACCOUNT.

4.1. The Client may have only one Account. For the purposes of this clause, at the Provider's discretion, Accounts of different actual persons who are members of the same family and/or reside in the same household, use the same email address and/or phone, and/or payment account, and/or IP address, and/or a shared device, may be treated as Accounts of the same person.

Observed names and indicators: 4.2. The Client is prohibited from:; (i) creating more than one Account;; (ii) granting third parties access to their Account;; (iii) creating and/or using an Account on behalf of another person;.

(iv) creating and/or using an Account if the Client is an employee, former employee or relative of an employee of the Provider or its affiliates.

4.3. If the Client has actually withdrawn any funds in violation of the prohibitions described in clause 4.2, all such funds are deemed to have been transferred erroneously and remain the property of the Provider, and the Client is obliged to return them. The Provider reserves the right to withhold such amounts from the Client's Account.

4.4. The Client must ensure that accurate data is provided in the Account (full name, phone number, date of birth, etc.) and promptly update the data in the Account settings when it changes. Some changes may require additional verification.

4.5. The Provider has the right at any time at its sole discretion to request documents and information from the Client to confirm their ownership and lawful use of the Account, as well as for the purposes of combating fraud and money laundering (AML). Such documents may include, in particular, but not limited to:

Observed names and indicators: a photograph of the Client's identity document;; a photograph or screenshot of the Client's payment method or account;.

a photograph or screenshot of a document confirming the Client's place of residence;

Observed names and indicators: a selfie of the Client with an identity document;; confirmation of the Client's source of income;; confirmation of the origin of funds;.

a selfie of the Client with a written note (example: "Hello [Provider's trade name]") and/or upon fulfillment of special conditions (winking, turning the head/arm, etc.).

This list is not exhaustive. The Provider may request any other reasonable documents or information for the stated purposes.

4.6. All data in the provided documents must fully match the information specified by the Client in the Account. The documents must be valid, and the photo of the holder, date of birth and date of issue/expiry must be clearly visible. When the Provider requests a photo of the payment card, the Client is obliged to conceal the three-digit code CVV/CVC. The Provider never requests the code CVV/CVC. The Provider may set additional reasonable requirements for documents (validity period, image quality, language, translation, etc.). In the event of changes to the data after the Account is created, the Provider has the right to request documents both "before" and "after" the changes, with confirmation of the fact of such changes. The Provider may also use other verification methods (e.g., calls or video communication). Verification timelines are set individually; on average, review of each Client response takes up to five (5) days.

4.6.1. If fraud is suspected, the Provider may require video verification of the Client's identity. Refusal to comply with the requirement within the specified period may result in blocking of the Account and confiscation of funds.

4.6.2. If the Client fails to provide the requested verification documents or information within fourteen (14) calendar days from the moment of the Provider's request (sent by email, phone or via remote video verification), the Provider reserves the right to suspend the Account, restrict further gameplay and refuse to process withdrawals until the Customer Due Diligence (CDD) procedure is completed. If the Client continues to fail to comply with the requirements or refuses to comply with them, the Provider may terminate the Account and return the remaining net deposit balance to the original payment source, provided there are no suspicions of illegal activity.

If the Client refuses or evades undergoing the verification procedure, as well as provides someone else's, forged or edited documents (including with the use of software and graphic editors), the Provider has the right to deem all bets made by the Client invalid, annul all winnings and return to the Client only the amount of deposits made.

At its discretion, the Provider may instead annul all bets and return to the Client all funds previously transferred by the Client to the Account.

4.7. In case of suspicion of suspicious activity and/or fraud, the Provider has the right to suspend the possibility of withdrawing funds from the Client's Account until the Client's verification is completed. Until the full initial verification of the Account data, the Provider has the right, at its discretion, to suspend the possibility of withdrawing funds. In addition, when initiating additional or repeated verification under this section, the Provider may also suspend withdrawals until the verification is completed.

4.8. Violation by the Client of any provisions above is considered a material breach of these Rules. In this case, the Provider has the right to withhold all funds in the Account as a penalty (without prejudice to other remedies under law and these Rules), as well as to immediately terminate these Rules and close the Client's access to the Account and the Website.

4.9. The Client is solely responsible for the security of the data for accessing the Account. The Client agrees that if a third party gains access to the Account as a result of the Client's failure to comply with security measures, any activity of such person is considered the Client's activity, and the Provider is not liable for the Client's losses. Such cases may be regarded as granting access to a third party, which is a violation of these Rules.

4.10. The Provider reserves the right to terminate these Rules and close the Client's Account with a refund of the remaining funds (less withdrawal fees, if applicable) at its own discretion, without giving reasons and without prior notice.

4.11. The Provider may deem betting agreements invalid if it establishes that:

one Client has several Accounts (multi-accounts), including new accounts in another name;

Observed names and indicators: a group of Clients acts in collusion to circumvent restrictions;; the Client uses other persons' data to register new Accounts;.

the Client carries out fraudulent or unauthorized transactions (for example, with "old" payment means or chargebacks);

the Client acts in collusion with third parties (including other gaming or payment providers) to obtain unfair winnings or exceed betting limits;

Observed names and indicators: the Client uses automated betting software;; the Account is used for arbitrage rather than for real bets;.

loyalty programs are used in violation.

4.12. The Bookmaker has lost trust in the Client. If the Client cannot explain the history of bets during a check of the honesty of a placed bet — on the basis of which principles it was made, what the Client was guided by when placing the bet, why this event interested the Client, or answer any other questions related to the bet that the Bookmaker network considers necessary to ask the Client — and if the answers provided by the Client leave doubts about the honesty of the placed bet, this entails the loss of the Bookmaker's trust in this Client. The foregoing may be confirmed by the size, volume and structure of bets with the Bookmaker. The decision made by the Bookmaker's management on any of the listed issues (if any) is final. In the event that for any reason the Client has a negative balance, the Bookmaker reserves the right to take this into account before making any payouts to this Client.

Observed names and indicators: 5. USE OF THE WEBSITE.

5.1. The Client, subject to continuous compliance with all provisions of these Rules (including the provisions on verification), has the right to use their Account to place bets with the Provider via the Website. The Client

acknowledges (except for the provisions of clause 2.6) that the Provider provides real-money games via the Website and, wishing to place a bet, the Client must use real money.

5.2. In order to be able to place bets, the Client must top up their Account with real money in accordance with section 6. The Client expressly confirms that the Provider is not a financial institution and no interest is accrued on funds deposited to the Account.

5.3. The Client hereby authorizes the Provider to debit funds from the Client's Account as payment for bets placed by the Client.

Observed names and indicators: 5.4. The Client expressly confirms and acknowledges that:.

(i) by using the Website, the Client participates in real-money games, and the Provider does not guarantee winnings;

(ii) use of the Website may result in financial losses, and the Provider is not liable for such losses.

5.5. The Provider reserves the right, at its sole discretion, to remove any game, product or service from the Website at any time.

5.6. If the Client has not deposited (or withdrawn) funds to/from the Account or has not placed bets for twelve (12) consecutive months, the Provider may charge a monthly administrative fee of 5 (five) US dollars or the equivalent in another currency (or an amount equal to the current Account balance, if lower). The Client hereby authorizes the Provider to debit the said fee until the Account balance is exhausted (in which case the Provider may close the Account and terminate these Rules immediately) or until the Client makes a new deposit, withdraws funds or places bets (whichever occurs first). The Provider will notify the Client by email at least 24 hours before applying the administrative fee to an inactive Account. The Client has the right to appeal the closure of the Account by contacting support@parimatch.com within 30 days of the notification.

5.7. The Provider may set a maximum single bet amount for the Client, including different limits for different games and products on the Website, as well as different limits for the same game or product depending on the use of special offers (e.g. bonus offers). The maximum bet amount may vary depending on the sport, competition, event, market or type of bet and may change at any time without prior notice.

The Provider may set individual maximum limits for individual events or Client Accounts, as well as introduce and remove special restrictions without notice or explanation of reasons.

5.8. Unless otherwise approved by the Provider or provided for by these Rules, the following general limits and restrictions apply:

Observed names and indicators: (i) the amount of a single bet may not be less than 1 (one) US dollar;.

(ii) the amount of a single win, including jackpots, may not exceed 1 000 000 (one million) US dollars or the equivalent in another currency;

(iii) any win may be subject to verification and confirmation by the game administrator before being credited to the balance of the Client's Account. The Provider reserves the right to apply such verification to wins exceeding a certain amount set by the Provider at its sole discretion.

5.8.1. Once a bet has been placed and confirmed by the Provider's server (including the display of a receipt on the Website with the bet number), the Client cannot change, cancel or revoke such bet.

5.9. If the Client wishes to place a bet the amount of which exceeds the established maximum for the given event or type of bet, he is entitled to place it as a "VIP bet", subject to the following conditions:

(i) the Client's Account must hold an amount exceeding the established maximum bet limit;

(ii) the minimum amount of a "VIP bet" is the equivalent of 100 (one hundred) US dollars in the Account currency;

Observed names and indicators: (iii) a "VIP bet" may be placed as a single, accumulator or system bet;; (iv) "VIP bets" are not accepted on LIVE events;; (v) «VIP bets» are not accepted on the express line;.

(vi) an application for a «VIP bet» must be sent no later than 20 minutes before the start of the event;

If all the specified conditions are met, the «VIP bet» is considered by the Provider for the possibility of its acceptance. Within 15 minutes a decision is made — the bet is either accepted in full or rejected. The progress of consideration and the result are displayed on the «Account History» page.

If the «VIP bet» is rejected, the Client has the right to place a regular bet within the established maximum.

The maximum payout on «VIP bets» is the equivalent of 1 000 000 (one million) US dollars.

5.10. In the event of inconsistency or discrepancies between the English version of these Rules or any other document of the Provider and the version in another language, the English version shall prevail, which is considered the original and controlling one.

Observed names and indicators: 6. DEPOSITS.

6.1. Subject to the other provisions of this section, the Client may top up the Account using the payment methods available on the «Deposit» page of the Website at the time of the transaction.

6.2. The Account may be topped up only using payment accounts (e.g., bank card, bank account, e-wallet, etc.) belonging to the Client and registered (issued, opened) in their name. The Provider rejects all payments from third-party accounts. For the avoidance of doubt: a deposit cannot be made from a corporate card or a similar account. If such third-party payments have been credited to the Account, the Client must immediately notify the Provider, and the Provider will debit the said funds from the Client's Account. In the event of failure to notify, the Provider is entitled, in addition to the debit, to withhold as a penalty the amount of such third-party payments together with the amount of winnings received after the deposit of these funds.

6.3. The Provider is entitled to set a minimum deposit amount (the amount permitted to be deposited through one payment transaction) and to change it at any time. The current minimum deposit amount is always displayed on the "Deposit" page of the Website. If the minimum deposit amount is not indicated on the said page, it is deemed to be equal to 5 (five) US dollars; however, higher limits may be set individually by the relevant payment providers in accordance with their rules and payment processing requirements. The maximum deposit amount through one transaction may be limited by the provider of the payment method selected by the Client.

6.4. The Provider does not provide currency exchange services. The internal operating currency of the Website is US dollars (USD), as well as any other currencies available on the Website at the time of or after the Client's registration. In this regard, multiple currency conversions may occur when topping up the Client's Account, and the Provider is not liable for any losses related thereto.

6.5. Deposits and withdrawals may be accompanied by fees depending on the selected payment method. The current fee structure is displayed on the "Deposit" and "Withdrawal" pages of the Website. Additional fees may be charged by the Client's issuing bank, payment system, e-wallet or other payment service providers; such fees are beyond the control and responsibility of the Provider.

6.6. Deposit crediting times depend on the chosen payment method and may change. The current times for each method are always displayed in the Client's Account at the time of making the deposit and take priority over previously indicated information.

Observed names and indicators: 7. WITHDRAWAL OF FUNDS.

7.1. Subject to other provisions of this section, the Client may withdraw funds from the Account using the payment methods available on the "Withdrawal of Funds" page of the Website at the time of the transaction.

7.1.1. Withdrawal of funds from the Account is available only after the Client has made at least one successful deposit. Clients who have not yet made their first deposit may participate in separate promotions or no-deposit offers, however withdrawal of any funds (including winnings received under such offers) becomes available only after the first deposit has been made and confirmed.

7.2. The Client confirms and agrees that, for the purposes of the Provider's compliance with the requirements of AML, when making a deposit the Client is not entitled to withdraw the said deposit until the wagering conditions defined below are met (the Provider will reject such withdrawal until these conditions are met):

7.2.1. For the purposes of clause 7.2 (including all subclauses), unless expressly stated otherwise, the deposit amount includes the deposit itself and all possible winnings from its use (including winnings from previous bets using this deposit).

7.2.2. To withdraw the corresponding deposit, the Client must, using it, place bets in the aggregate amount equal to one hundred percent (100%) of the amount of this deposit (winnings, settled bets with odds of 1 and via Cashout are not taken into account). After fulfilling the wagering conditions, the Client will be able to withdraw the corresponding deposit amount.

7.2.3. If, after fulfilling the wagering conditions for a deposit, the Client decides to top up the Account with a new deposit before withdrawing it, such new deposit is also subject to the same wagering requirements. At the same time, the Client has the right to withdraw previous deposits for which the wagering conditions have been fulfilled.

7.2.4. If, before fulfilling the wagering conditions for any deposit, the Client decides to top up the Account with a new deposit amount, such new amount is also subject to the same wagering requirements before it becomes available for withdrawal. For the avoidance of doubt, fulfillment of the wagering conditions is considered separately for each deposit in the order in which they were made (on a "first in, first served" basis), and no bet is counted simultaneously toward fulfilling the wagering conditions for more than one deposit. A fee may be charged for the withdrawal of funds; where applied, the exact fee amount is displayed in the Client's Account at the time the withdrawal request is submitted.

7.2.5. The Client agrees that any winnings from bets placed using a specific deposit are included in the amount of such deposit and may be withdrawn only after the wagering requirements for it have been fulfilled.

7.2.6. For the purposes of this clause 7.2 (including all subclauses), deposits are used in the following order:

(i) first, deposits with unfulfilled wagering requirements — in the order in which they were made (from earliest to latest);

(ii) deposits with fulfilled wagering requirements (all of them are treated as a single deposit) are used only after no deposits specified in clause (i) remain.

7.2.7. The Provider may, but is not obliged to, allow the Client to withdraw funds before fulfilling the wagering conditions for an additional fee (to cover the Provider's AML risks) in the amount of not less than 5% of the deposit amount.

7.3. Withdrawals may be made only to payment accounts (e.g., a bank card, account, e-wallet, etc.) belonging to the Customer and registered in their name. The Provider rejects all withdrawals to third-party accounts. For the avoidance of doubt: a withdrawal may not be made to a corporate card or similar account. Furthermore, a withdrawal may be made only to the payment account that was previously used to make a deposit. If for any reason the Customer cannot use this account (e.g., it has expired), then in order to withdraw funds to a new

account the Customer must first top up the Account with at least the minimum deposit amount from this new account. Only after that may it be used for withdrawal.

7.4. The Provider has the right to set a minimum withdrawal amount (the minimum amount permitted to be withdrawn via a single payment transaction) and to change it at any time. The current minimum withdrawal amount is always displayed on the "Withdrawal" page of the Website. If the minimum withdrawal amount is not indicated on the specified page, it is deemed that the applicable minimum withdrawal amount is determined individually by the relevant payment provider and may vary depending on the method used. The maximum withdrawal amount per transaction may be limited by the provider of the payment method selected by the Customer; in such case, the withdrawal is made in parts. In addition, the Customer agrees that the Provider, based on internal operational specifics, has the right at its discretion to split any withdrawal operation into several (equal or unequal) transactions.

7.5. The Provider does not provide currency exchange services. The internal operating currency of the Website is USD and EUR. In this regard, multiple currency conversions may occur upon withdrawal of funds, and the Provider is not liable for any losses related thereto.

Observed names and indicators: 7.6. The Customer agrees that:.

(i) banks and other financial institutions, as well as other payment providers (regardless of country), may block or reject transactions at their own discretion, and the Provider is not liable for this;

Observed names and indicators: (ii) some withdrawal methods may not support certain currencies;.

Observed names and indicators: 10. RESPONSIBLE GAMING.

10.1. The Client acknowledges that gambling via the Website should be considered solely as a form of entertainment and may not be used as a source of income or a means of paying off debts.

10.2. In order to promote responsible gambling, the Provider shall, at the Client's request, apply individual restrictions or exclude the Client from access to the Website.

10.3. If the Client wishes to limit their use of the Website, they must send the Provider a written notice specifying the type of limit (see below), the desired duration of its effect and the parameters of the limit (e.g., the maximum permissible amount of losses over a certain period).

10.4. At the Client's request, the Provider shall, within 24 hours, apply the following personal limits (those specified by the Client):

Deposit limit — a restriction on the total amount the Client may deposit over the selected period (day, week, month). If the limit is reached, the ability to top up is blocked until the end of the period;

Loss limit — a restriction on the total amount of losses over the selected period (day, week, month). The limit is calculated based on the Client's deposits, excluding winnings. If the Account balance has decreased by the amount of the limit, the ability to place bets is blocked until the end of the period;

Betting limit — a restriction on the total amount of bets (regardless of the outcome) over the selected period (day, week, month). When the limit is reached, the ability to place bets is blocked until the end of the period;

Session limit — a restriction on the total duration of use of the Website over the selected period (day, week, month). When the duration limit is reached, access to games is blocked until the end of the period;

Self-exclusion limit — blocking of the ability to top up, place bets, withdraw funds and log into the Account for the requested period.

10.5. The Client has the right at any time to request that the Provider establish stricter limits (they are applied pursuant to clause 10.4) or, conversely, to relax or cancel previously established restrictions. In the latter case, the Provider shall consider the request individually and has the right to approve or reject it at its discretion.

10.6. After the expiry of the limit period, the Client may again use the Website without the restrictions provided for in this section, subject to the general provisions of these Rules.

10.7. All requests for the application of responsible gaming limits or self-exclusion shall be processed within 24 hours from the moment of their receipt.

Observed names and indicators: 11. COMPLAINTS.

11.1. The Client may contact the Provider's support service in accordance with the instructions posted on the "Customer Support" page of the Website, or at the email address support@parimatch.com, in order to submit a complaint related to the use of the Website. A complaint shall be considered by the Provider only if it is submitted within six (6) months from the date of the relevant gaming session. All monetary transactions are processed by independent third-party payment providers under their own timeframes and terms. The Provider will make all reasonable efforts to assist, but cannot guarantee the speed or outcome of an investigation conducted by such providers and is not liable for delays or actions beyond its control.

11.2. The support service will make every effort to promptly consider the complaint and, if the matter cannot be resolved immediately, will refer it for consideration to the Provider's managers.

11.3. The Client has the right to a transparent, fair and efficient complaint resolution process. In addition to the internal complaint review procedure, the Client always has free access to an independent alternative dispute resolution procedure (ADR). Full information is set out in the Player Complaints Policy, permanently available on

the Website at In the event of any conflict between this section and the said Policy, the Policy shall prevail.

11.4. If the Client abuses their right to submit complaints (e.g., spams, submits numerous unfounded complaints, insults the Provider's employees, etc.), the Provider has the right to restrict the ability to submit complaints or to ignore all complaints received from the Client. The Client agrees that the Provider has the right to record all communications with them.

11.5. In the event of a dispute, the Client agrees that the Provider's server logs and records are reliable evidence in determining the outcome of any claim. In the event of a conflict between the game result displayed on the Client's screen and the result actually recorded by the server, the server record shall prevail. The Client agrees and confirms that the Provider's records are proper evidence of the terms and circumstances of the Client's participation in the relevant game and its results.

11.6. Escalation to ADR.

If the Client is not satisfied with the final decision, they may refer the dispute free of charge to an independent ADR process subject to the following conditions:

(i) the Client has completed the internal complaint review procedure described above;

(ii) the Client submits a request to ADR before going to court; the decision of ADR is binding on the Client;

(iii) the Client's complaint meets the admissibility criteria, including a minimum dispute amount of 2 000 euros.

11.7. The Client agrees that any communication from the Provider is deemed proper if it is sent to the contact details specified by the Client in the Account. All such messages are deemed delivered at the time of sending.

Observed names and indicators: 12. OTHER PROVISIONS.

12.1. The Provider is not liable for hardware or software failures, unstable or lost internet connections, or any other technical errors that may limit access to the Website or hinder its continuous use.

12.1.1. Although the Provider makes every effort to ensure the accuracy of the information displayed on the Website, all data on the current course of events (including real-time results, statistics and time) is provided for informational purposes only. The Provider is not responsible for any possible inaccuracies. Customers are advised to use additional sources of information. In the event of discrepancies between the English version of these Terms and Conditions (T&C) and their translation, the English version shall prevail.

12.1.2. The dates and times of events displayed on the Website are provided for informational purposes only. An incorrectly displayed date or time is not grounds for voiding a bet. All bets placed before the actual start of the event remain valid. For the purposes of settling results, the actual start time of the event as determined by the official organizer or its authoritative sources shall prevail.

12.1.3. The Provider is not responsible for the accuracy of the translation of player names, team names or venues of events. Minor discrepancies in spelling or translation do not affect the validity of bets.

12.2. If a bet was accepted or a payment was made as a result of an error by the Provider, it has the right to cancel all related bets. In such a case, erroneous winnings are debited from the Customer's Account, and the stake amounts are returned.

12.3. If the Provider erroneously credited to the Customer's Account winnings that do not belong to the Customer (due to a technical error, incorrect odds, human factor, etc.), such amounts remain the property of the Provider and are subject to debiting. If the Customer managed to withdraw the said funds before the error was discovered, they are considered a debt owed by the Customer to the Provider. In the event of an erroneous credit, the Customer is obliged to notify the Provider immediately.

Observed names and indicators: 12.4. The Provider, its directors, employees, partners and contractors:.

do not guarantee that the software or the Website meet the Customer's objectives;

do not guarantee that the software or the Website are free of errors;

do not guarantee uninterrupted access to the Website and/or games.

12.4.1. To the maximum extent permitted by law, the Provider is not liable for direct, indirect, incidental, special, punitive, exemplary or other damages, regardless of the legal nature of the claims (contract, tort, negligence, etc.), and regardless of the foreseeability of such damages arising in connection with access to the Website, use of or inability to use it.

12.4.2. Without prejudice to the foregoing, the Provider's aggregate liability to the Customer for any claim arising from these Rules or the Website shall not exceed the lesser of the following amounts: (i) the Customer's total stake volume for the three (3) months preceding the incident; or (ii) 2 000 (two thousand) euros.

12.4.3. In exceptional cases, if the Customer's confirmed and documented damages exceed the standard limit (by no more than three times), the Provider may, at its sole discretion, consider compensation in an amount not exceeding three times the limit. This provision does not constitute an admission of liability beyond the limit and does not constitute an obligation to compensate.

12.4.4. The Provider reserves the right to reject any claim regardless of the amount if it is established that the Customer has violated these Rules (for example, multi-accounting, fraud, bonus abuse, provision of false data during AML/KYC). In such cases, the Provider may withhold or cancel payments, void winnings and/or permanently restrict the Customer's access to the platform.

12.4.5. All claims must be supported by proper and verifiable documents. The Provider may request such documents at any stage of the review. The Client's failure to provide documents within 7 (seven) days may result in the rejection or reduction of the claim amount.

12.5. The Client agrees to fully indemnify and hold harmless the Provider, its directors, employees, partners and contractors from any liability, claims, expenses or losses arising from the Client's breach of these Rules.

12.6. The Client acknowledges that the final decision on whether a breach of the Rules has occurred and on the consequences (including blocking or suspension of access) is made by the Provider.

12.7. If the agreement is terminated due to a violation of these Offer Rules (section 2), the offer is deemed not addressed to such a Client, and they are not entitled to create a new Account.

12.8. Assignment of the Client's obligations under this agreement is not permitted. The Client is not entitled to transfer their rights and obligations under this agreement to third parties.

12.9. The Client's Account may be closed at their request. To do so, they must contact the support service with a corresponding notification. Before closing the Account, the Provider conducts a verification to ensure that the request came from the Client.

12.10. Regardless of the Provider's right to close the Account in the event of a violation of the Rules or legislation, it reserves the right to close the Account at its own discretion without giving reasons, by sending the Client prior notice. Before closure (except in cases of violation), the Client is obliged to withdraw all funds from the balance (taking into account: (1) withdrawal rules and limits; (2) fees; (3) wagering requirements).

12.11. In the event of Account closure for violation of these Rules, the Client is prohibited from creating new Accounts and using the Website.

12.12. These Rules are governed by and construed in accordance with the laws of Curaçao. All disputes shall be

subject to the exclusive jurisdiction of the courts of Curaçao.

12.13. If any provision of these Rules is found to be unlawful or invalid, it shall be deemed severable, and the remaining provisions shall remain valid.

Observed names and indicators: 13. INTELLECTUAL PROPERTY.

13.2. The Client undertakes not to use automated or mechanical devices to access or reproduce the Website content without the prior written consent of the Provider.

Observed names and indicators: BET SETTLEMENT AND DISPUTED RESULTS.

14.1. The Provider announces the official results on the basis of official records and verified sources after the completion of the event. In the event of discrepancies between sources or obvious errors, the final decision on bet settlement is made by the Provider. Actions regarding bet settlement in cases of integrity violations are governed by clause 9.9 of these Rules.

14.2. If there are grounds to believe that a bet was placed after the outcome of the event became known, or after a team or player obtained a significant advantage (for example, a goal scored, a player sent off or a substitution), the Provider reserves the right to declare such a bet void and return the stake amount.

14.3. All data concerning real-time events (for example, results, time, statistics) is provided for informational purposes only. The Provider is not liable for any inaccuracies and recommends using official sources of information.

14.4. For live bets, the Provider settles based on its own data regarding the actual course of the game. In the event of loss or incomplete transmission of data, events may be settled with odds of 1.00.

14.5. Any claim concerning disputed results must be submitted within ten (10) days from the official completion of the event. After this period, claims are not accepted. In the event of disagreements or disputes, the final decision rests with the Provider.

14.6. The Provider reserves the right to declare the betting agreement invalid (including one concluded before or after the start of the event), to refuse payment of any winnings and/or not to return the stake if it is established that the event was subject to match-fixing, manipulation or other breaches of integrity.

If the Client did not participate in the manipulations and did not benefit from them, but the result of the bet turned out to be distorted, the Provider is entitled to declare such bet invalid and return the bet amount. The Provider's decision on such matters is final.

Observed names and indicators: CROREBET REAL PLAYER REVIEWS.

Ankit J.

I usually don't trust new betting sites that much, but CroreBet's been okay for me so far. I signed up during an IPL match, deposited, played a bit, and nothing weird happened — which is honestly already a win. Lost some, won some, withdrew once and it came through the same day. I'm not saying it's amazing, just… normal, and that's why I still use it

Observed names and indicators: Rahul, Pakistan.

I've used platform casually during big cricket matches, and honestly, it does the basics right. Deposits via UPI are

quick, games load without hanging, and withdrawals actually arrive — sometimes same day, sometimes a bit slower. It's not flashy, and bonuses aren't wild, but it feels stable. For a Pakistani player who just wants things to work, that matters more.

IS CROREBET LEGAL IN PAKISTAN?

CroreBet works only legally in Pakistan as long as a person does not live in the regions where online gambling is actually forbidden. While the Public Gambling Act of 1867 doesn't mention online betting, it deals mainly with physical casinos. For this reason, operating an online betting platform is not illegal in Pakistan at the federal level.
