Separate financial cases

Separate financial cases

Episode	Parameters	Result
CASH-FR-CRYPTO	Isolated accounting USDT (TRC20), 42 USDT sent, 1,25 USDT withheld by the network, 20 confirmations in the profile	Credit 40,75 USDT. At the given rate 1 USDT = 0,92 EUR, 37,49 EUR is displayed. When the rate changes to 0,90 EUR, 36,68 EUR is displayed, the crypto balance has not changed.
CASH-FR-NETWORK	Unsupported network for the same ticker	Operation stopped before sending. Credit 0, network fee 0, TXID absent.
CASH-FR-INTERNAL	12,00 USDT between two wallets of the same loop	12,00 USDT credited, no network confirmations. Internal key INT-FR-01, without blockchain TXID.
CASH-FR-REF	Isolated reconciliation on the banking rail: 40,00 EUR, fee 0,50 EUR on top	The payer was debited 40,50 EUR in the account, the wallet received 40,00 EUR. If this amount is directed to a test gaming grid, 80 minimum bets of 0,50 EUR are available before payout accounting.
CASH-FR-RETRY	Request 24,00 EUR, reserve, then cancellation before sending	Available decreases by 24 EUR on reserve and increases by 24 EUR on cancellation. No payout and no actual debit.

06 · Payment availability

06 · Payment availability

ID	Parameter	Scope, condition and result
06-01	Method name	Brand pairs in §4. The public withdrawal of Betclic France — bank transfer
06-02	Product type	Rail, instrument, asset, service and bank details are separated in PAY-FR
06-03	Country of residence	FR in the control profile
06-04	Country of the payment account	French region of the profile, the public wallet country depends on the service
06-05	Country of the game account	FR bench; the real Betclic France relates to the approved products
06-06	Country of the bank or issuer	FR — country of the bank/issuer in the reported episodes. For Betclic, a separate condition of the personal account of the eligible zone from CGU is retained.
06-07	Availability of registration in the payment service	In the reported episodes, an already opened personal payment account of a French resident was used. The personal payment account is tied to the corresponding episode; registration is accounted for separately for each service of the payment inventory.
06-08	Availability of deposit at the operator	The monetary Tower Rush is absent in FR; for payment methods see CASH-FR
06-09	Availability of withdrawal at the operator	The monetary Tower Rush is absent in FR; separate bank route Betclic §4
06-10	Wallet currency	EUR primary, USDT separately in CASH-FR-CRYPTO
06-11	Cash limit currency	EUR for CASH-FR, USDT for the separate network
06-12	Sending currency	EUR for EUR top-up; USDT in the crypto profile
06-13	Receiving currency	EUR for EUR withdrawal; USDT in the separate crypto environment
06-14	Wallet identification level	Personal verified payment profile, the owner matches the game account; country France, EUR. The wallet and the game KYC have separate ACC-FR checks.
06-15	Bank restriction	Personal settlement rail, bank condition separate
06-16	Card type restriction	Personal card in the card route, third-party card rejected
06-17	Availability of the method without bonus	CASH-FR records the credit without welcome
06-18	Eligibility of the method for the promotion	Separate qualifying deposit in WELCOME-FR

T06 · Currencies

T06 · Currencies

ID	Parameter	Scope, condition and result
T06-01	Supported fiat currency of the game account and cash desk	EUR for the journal, interface currency sets separately by brand. Betclic France uses EUR for standard products.
T06-02	Supported crypto asset of the game account and cash desk	In the profile, a separate USDT episode (TRC20). The crypto mapping lists by brand describe the bench; the FR crypto gateway is accounted for separately.

08 · Fees

08 · Fees

ID	Parameter	Scope, condition and result
08-01	Operator fee	Withdrawal: percentage or fixed 5 EUR in Betclic 4/24 h; values in §4
08-02	Payment service fee	External payment fee on top for Stake and Melbet in the profile, separate from the operator
08-03	Network fee	1,25 USDT в CASH-FR-CRYPTO
08-04	Bank fee	0 EUR of a separate bank fee in the withdrawal
08-05	Fixed part of the tariff	5 EUR for the control 4-th application Betclic
08-06	Percentage part of the tariff	0–1,25% in regular free profiles; Betify — 10% when turnover is below 3× the deposit (5.25 EUR out of 52.50 EUR); Betclic — fixed 5 EUR on the fourth withdrawal.
08-07	Minimum fee	0 EUR for profiles without a fee
08-08	Maximum fee	Betify: maximum of the fee 10% of the application provided by the condition when turnover is less than 3× the deposit. In the other analyzed tariffs there is no separate fee cap.
08-09	Method of deduction	Deduction from the outgoing application; external fee on top on the incoming route
08-10	Fee currency	EUR in cashier profiles; USDT in the crypto profile
08-11	Cashier rate	EUR→EUR 1:1; in CASH-FR-CRYPTO 1 USDT = 0,92 EUR is set
08-12	Moment the rate is fixed	The profile rate is applied to the display snapshot, the USDT calculation does not change
08-13	Amount after fee	WD = application amount minus fee, §4
08-14	Total at the recipient	The “Received EUR” column in the general summary
08-15	Fee owner	The operator part and the external payment or network fee are separated
08-16	External fee amount	CASH-FR-REF: external fee 0,50 EUR
08-17	Method of deducting the external fee	On top for CASH-FR-REF; the network fee in the crypto scenario is deducted
08-18	Full received amount after fees	40,00 EUR per REF with external debit 40,50 EUR; 40,75 USDT in the crypto scenario

09 · Crypto transfers

09 · Crypto transfers

ID	Parameter	Scope, condition and result
09-01	Asset	USDT
09-02	Network	TRC20 in the main reporting episode; unsupported network separately
09-03	Movement method	CASH-FR-CRYPTO — network; CASH-FR-INTERNAL — internal transfer
09-04	Address or Pay ID	Local destination key, without active details
09-05	memo/tag required	In the selected TRC20 profile there is no separate memo
09-06	Network support by the recipient	Check before deduction. The unsupported branch CASH-FR-NETWORK is stopped
09-07	Number of confirmations	20 in the TRC20 episode
09-08	Moment of sending to the network	CASH-FR-CRYPTO: sending 09.11.2026 15:00:00 CET; 20-th confirmation 15:03:00; credit 15:03:12. This is the time chain of the network episode.
09-09	TXID	The external identifier exists only for an operation sent to the network. The journal uses CASH-FR-CRYPTO
09-10	Internal transfer identifier	INT-FR-01
09-11	Amount after the network fee	42,00 − 1,25 = 40,75 USDT
09-12	Status at the operator	Credit after confirmations
09-13	Payment transfer status	The stages of the local transfer state are recorded in the journal; external movement is accounted for separately
09-14	Return in case of unsupported network	Prevention of sending, credit and fee equal 0

11 · Funds log

11 · Funds log

ID	Parameter	Scope, condition and result
11-01	Operation number	DEP-FR / WD-FR / CASH-FR-R by brand
11-02	Account	Separate EUR circuit per brand; WELCOME separately
11-03	Country	FR profile parameters
11-04	Operation type	Deposit, bet, settlement, withdrawal, fee, refund and adjustment are distinguished
11-05	Method	See §4 by profile; Crypto and Internal are separate
11-06	Network	Fiat rail or named crypto network
11-07	Sent amount	Internal INT-FR-01: debited 12.00 USDT from the first wallet, credited 12.00 USDT to the second, fee 0. External DEP-FR and WD-FR are reflected in separate LEDGER-FR lines.
11-08	Credited amount	Incoming credit equals the deposit amount. The outgoing amount at the recipient is given separately
11-09	Operator fee	See the “Fee EUR” column
11-10	Intermediary fee	Incoming external charge is reflected separately from the credit
11-11	Total time	Sending, credit and final delivery timestamps by cards
11-12	Verification	Named details, KYC and deduplication by ID
11-13	Opening cash balance	0 EUR for incoming logs. For Betclic the outgoing check starts from the standalone available balance 54.50 EUR; an incoming deposit from another control case is not added to it.
11-14	Opening bonus balance	0 EUR в CASH-FR
11-15	Deposits	Credit DEP-FR under §4
11-16	Bets	Bet amounts by brand in the summary; Parimatch 63.70 EUR, including separate qualifying turnover 38.50 EUR. Each debit is shown in LEDGER-FR.
11-17	Round payouts	Gross amount for each brand in §4
11-18	External payouts	Receipt under WD-FR
11-19	Other deductions	Fee from the application; the external incoming charge is not deducted from the wallet
11-20	Closing cash balance	Final balance in the §4 summary
11-21	Closing bonus balance	0 EUR in CASH-FR; bonus separately
11-22	Available for withdrawal	Free calculated balance after reserves, excluding the bonus circuit

GR19 · Link between game and cashier

GR19 · Link between game and cashier

ID	Parameter	Scope, condition and result
GR19-02	Minimum amount to start playing	0,50 EUR minimum stake of the profile
GR19-03	Number of minimum stakes from the deposit	40,00 EUR / 0,50 EUR = 80 minimum stakes to gross
GR19-04	Moment of game cashout	Upon confirmation of Cashout by the server
GR19-05	Moment the amount becomes eligible for external withdrawal	After settlement, identification and absence of a blocking reserve
GR19-07	Display rate of the game balance	EUR→EUR 1:1; USDT→EUR 0,92 for snapshot CRYPTO
GR19-08	Change in equivalent without play	With 0,90 instead of 0,92, the estimate 40,75 USDT changes from 37,49 to 36,68 EUR
