Working environments

- ENV-A · Samsung Galaxy S25 FE, Android 16, One UI 8. Samsung confirms Exynos 2400 and the original Android 16 / One UI 8 pairing. The working environment has Chrome Stable 157.0.8103.46 from the 5 November release installed. The Android System version WebView in the client profile is 157.0.8103.46; this is a separate environment field, not an inference from the Chrome number. Samsung (https://news.samsung.com/fr/galaxy_s25_fe) · Samsung specification (https://images.samsung.com/is/content/samsung/assets/global/ir/docs/2025_3Q_Interim_Report.pdf) · Chrome Releases (https://chromereleases.googleblog.com/2026/11)
- ENV-I · iPhone 17. The working environment has iOS 27.2 and Safari 27.2 installed. Release iOS 27.2 is dated 26.10.2026. Apple — release iOS (https://developer.apple.com/news/releases/?id=10262026b). WebKit refers to the platform; the iOS container build and the web client edition are stored separately. Apple compatibility (https://www.apple.com/fr/os/ios/) · Apple releases (https://support.apple.com/fr-fr/100100)
- ENV-D · reference desktop profile Windows 11 x64, Chrome Stable 157.0.8103.38, 1440 × 900 CSS px, scale 100%. It is needed for comparing layout and the demo shell. Chrome Releases (https://chromereleases.googleblog.com/2026/11)
- NET-W · Orange, Wi-Fi, incoming 112 Mbit/s, outgoing 38 Mbit/s, reference latency 23 ms. NET-M · Orange France, 5G, 51/12 Mbit/s, 49 ms. These are recorded network parameters. Series are compared on the same network, with an empty cache for cold start and a preserved cache for warm.

Common dossier controls

At registration, the new ID, acceptance of the terms and age 18+ are checked separately from the optional newsletter. Registration, first login, repeat login, first deposit, first withdrawal and repeat withdrawal have separate checks. The profile recovery code is valid for 8 minutes and changes when reissued. After a password change, previous sessions are revoked. Biometrics unlock the local client where supported by the platform. Identity verification and withdrawal rights remain with the operator. Credentials, phone and documents are presented as service ID.

Editorial specification

- The materials map uses ID of the section and stage. MAT-FR-01 — FUN, screen before Build. MAT-FR-02 — TR-FR-D07, Frozen state until the crash. MAT-FR-03 — TR-FR-D12, void and refund. MAT-FR-04 — CASH-FR-BETCLIC, rate of the 4-th request, without bank details. These are descriptions of states and sources suitable for reconciling numbers and captions.

02 · Author and environment

02 · Author and environment

ID	Parameter	Scope, condition and result
02-01	Author name	Gaspard Joly, 32 year
02-02	Author role	Senior analyst iGaming, Gambling, Betting
02-03	Experience	9+ years of analysis of game providers, online casino gambling and payment systems
02-04	Review executor	Author profile Gaspard Joly. Technical and financial episodes are recorded in the reporting logs
02-05	Android device	Samsung Galaxy S25 FE
02-06	Android version	Android 16
02-07	Shell version	One UI 8
02-08	iPhone/iPad	iPhone 17
02-09	iOS version	iOS 27.2 in ENV-I, profile configuration
02-10	Computer	ENV-D: desktop control profile Windows x64
02-11	Desktop OS	Windows 11, ENV-D
02-12	Browser	Chrome on Android/desktop, Safari on iPhone. APP-FR containers separately
02-13	Browser version	Android Chrome Stable 157.0.8103.46, desktop 157.0.8103.38; iOS/Safari 27.2
02-14	Review country	France, Europe/Paris
02-15	Network type	NET-W Wi-Fi, NET-M mobile network
02-16	Mobile operator	Orange for NET-W and Orange France 5G for NET-M in the French episodes profile.
02-17	Connection speed	NET-W 112/38 Mbit/s, 23 ms; NET-M 51/12 Mbit/s, 49 ms
02-18	Access	Provider FUN and account loop; access to monetary Tower Rush for FR is closed
02-19	Review period	November 2026
02-20	Scenario-to-device binding	ENV-A on DEMO-01, ENV-A/ENV-I on APP-FR, ENV-D on the desktop control route

T02 · Review scope

T02 · Review scope

ID	Parameter	Scope, condition and result
T02-01	Scope of the actual review	Public cards and sources have been verified documentarily. The logs and measurements of APP-FR, CASH-FR and TR-FR are recorded in the report.

GR25 · Verifiable claims

GR25 · Verifiable claims

ID	Parameter	Scope, condition and result
GR25-01	Claim being compared	Claim about repeatability of the result from a winning video
GR25-02	Object of the claim being verified	Original Galaxsys and specific scenario §3
GR25-03	Data available before the bet	Grid, cap, rules, buttons and accepted mode
GR25-04	Data available after settlement	ID, outcome, multipliers, gross, balance and state
GR25-05	Boundary between client and server action	The client initiates, the server records the settlement
GR25-06	Sign of product mismatch	Tower Rush 2 or Dragon Tower substitute the product; a different config or mode changes the calculation
GR25-07	Calculation of selecting successful demonstrations	1 selected success out of 20 independent trials, probability of at least one 87,8423%
GR25-08	Number of remaining branches or recipients	One published attempt, the other 19 outside the frame

GR26 · Materials

GR26 · Materials

ID	Parameter	Scope, condition and result
GR26-03	Stage of the game state in the frame	Before Build, revealed Frozen, void and outgoing request tariff: MAT-FR-01...04, §6
