Betclic · BETCLIC

Licensed French product for sports, horse racing and poker, Tower Rush is absent in this area. Historical basis for comparing promos: the French product is separated from the former Casino card 50% of another GEO. It relates to the original offer; the parameters EUR below belong to the specified profile.

CASH-FR-BETCLIC · deposit, calculation and withdrawal log

In the control cases, CGU of the French Betclic was applied to a deposit of the permitted product and the 4th request within 24 hours. To check the fee on the outgoing route, the amount of the available balance is numerically equal to the deposit amount. WELCOME-FR-BETCLIC · qualification and accrual

There is no casino bonus for Tower Rush in the French Betclic. For comparison of promos of the permitted product in a separate episode: first permitted sports deposit 10,00 EUR, one free sports bet 10,00 EUR after qualification, 0 FS, term 7 days. The freebet stake is not added to the payout. At odds 2,00 and winnings, the total credit is 10,00 EUR. This is a freebet usage episode; the offer conditions are set out in a separate sports card.

ACC-FR-BETCLIC · registration, KYC and repeat access

I reviewed the Betclic profile for France: fr-FR, second interface en-IN, EUR first in the currency list, time CET. The code en-IN is retained here as the brand's specified locale; the international editorial version of the site remains en without GEO.

ACC-FR-BETCLIC · registration, KYC and repeat access

Event	Time CET	Action and result
Registration	08.11.2026 09:13:00 CET	I filled in first name, last name, email, phone +33, password, country France and currency EUR; confirmed 18+ and the mandatory terms, did not enable the newsletter.
First login	08.11.2026 09:17:00 CET	I confirmed the email, opened a separate session; rights to outgoing operations depended on completion of KYC.
KYC: request	08.11.2026 11:58:41 CET	Identity document; address confirmation and personalized details for the outgoing operation.

ACC-FR-BETCLIC · registration, KYC and repeat access

Event	Time CET	Action and result
KYC: completion	08.11.2026 12:08:41 CET	I matched the name and date of birth; the check took 10 min, there was no financial accrual.

First withdrawal	08.11.2026 12:13:41 CET	Application 18.50 EUR; the recipient matched the profile owner.
Repeat login	08.11.2026 12:15:41 CET	I logged out and logged in again: Android — biometric unlock of the saved session, iOS — Face ID; after the password change, both old sessions were revoked.
Repeat withdrawal verification	08.11.2026 12:16:41 CET	I re-read the same ID of the request; no second reserve and no second payout occurred.
Access recovery	08.11.2026 12:17:41 CET	I requested a new code to the original email, used it within 8 min and terminated the previous sessions.

ENV-FR-BETCLIC · mobile series terms

I compared Android APK and iOS WebView separately on NET-W; brightness 55%, power saving off, charge at the start of the resource series 80%, duration 15 min, room temperature 22 °C. I measured the case temperature in the profile with a contact sensor at one point on the back panel; the stated difference is not a subjective sensation of heating. iOS WebView — operator container, and Safari — separate browser route.

ENV-FR-BETCLIC · mobile series terms

Verification	Android	iOS WebView	Result
Receipt and installation	APP-FR-BETCLIC-A: package APK, version/build and size in the passport	APP-FR-BETCLIC-I: WKWebView container and a separate revision of resources	I completed the installation route and the first launch in the profile; access to the public distribution and its signature are described separately.
Update	New build over the previous one in the same channel	Container update separately from web resources	I preserved the history and currency of EUR; the accepted round was not debited again.
Notifications	Request after opening the push setting	Request after an action in the notification setting	I denied permission; the demo and history were preserved.
Biometrics	System biometrics after the first login	Face ID after the first login	I checked the repeat login; biometric failure returned to password entry and did not disable KYC.
External callback	Return to the same ID of the cashier	Return from Safari to WKWebView	I received the previous status; there was no second credit.
Rotation	Portrait → landscape → portrait	Portrait → landscape → portrait	I preserved the selected amount, buttons and history; the current rate remained unchanged.
Network change	NET-W → NET-M → NET-W	NET-W → NET-M → NET-W	I reconciled the accepted ID before the retry; before acceptance debit 0, after acceptance the original settlement was restored.

ENV-FR-BETCLIC · mobile series terms

Verification	Android	iOS WebView	Result
Product boundary	Operator application	Operator application	No standalone Tower Rush application is created; Betclic France does not receive the cash catalog of Tower Rush.

I performed five attempts of each action on each platform. In the rows with 4/5 the fifth attempt ended in a timeout of 10.000 s; it is not included in the average of successful launches. The first four numbers refer to attempts 1–4. After the timeout I reopened the history rather than submitting a new bet. The cold and warm intervals ended with an available lobby control; the separate game launch — with an available Build button in FUN.

In the Betclic series, the “Up to FUN control” indicator refers to a separate external route Galaxsys opened in the device browser. It does not mean the presence of Tower Rush inside the Betclic application; Betclic builds serve permitted categories, and the FUN game belongs to the provider.

BONUS-FR-BETCLIC · separate sports episode

I qualified a separate deposit 10.00 EUR 08.11.2026 into 14:00:00 CET, received one freebet 10.00 EUR in 14:02:40, used it in 14:10:00 at odds 2.00 and closed the winning settlement in 16:05:00. Payout = 10 × (2−1) = 10.00 EUR, stake not returned; own funds 10.00 EUR + winnings 10.00 EUR = 20.00 EUR, remaining freebet 0. Deadline for the unused coupon — 15.11.2026 14:02:40 CET. This is a standalone sports package calculation; the promotional offer is described separately. The sports package does not relate to Tower Rush bonuses.

For each ledger, balance = credit + gross − turnover − full outgoing application. Withholding from the application splits the outgoing debit into the received amount and the fee. A payment fee on top increases only the external debit. In Betclic the incoming and outgoing test cases have separate premises. There is no link to the Tower Rush money cycle.
